Goonj

PRODUCT CATALOUGE

ABOUT US

Goonj Communication & Electronic Scale Co. was founded in 2011 by **Mr. Ajay Arora,** a visionary in the field of precision weighing solutions. Over the years, we have become a trusted name in manufacturing and importing high-quality **electronic weighing machines, scales,** and **surgical products.** Our commitment to innovation and precision has helped us provide our clients with the best in class products, catering to a wide range of industries.

From small businesses to large industrial setups, Goonj ensures that every client receives top-notch products backed by exceptional customer service.

DRESSING DRUM

01

Dressing Drum Jointed

The Dressing Drum Jointed features a hinged design that allows for easy access while ensuring the safety of the contents.

02

Dressing Drum Jointless

The Dressing Drum Jointless provides a seamless, joint-free design for added durability and hygiene in storing surgical dressings.

SURGICAL TRAYS

01

Instrument Tray

The Instrument Tray is designed for safely storing surgical instruments, ensuring easy access and organization during medical procedures.

02

Catheter Tray

The Catheter Tray is designed to hold and organize catheters and related accessories during medical procedures, ensuring a sterile and organized environment.

SURGICAL TRAYS

03

Shallow Tray

The Shallow Tray is a versatile tray for holding surgical instruments or other medical items, featuring a low depth for easy access.

04

Kidney Dish

The Kidney Dish is a curved, kidney-shaped tray designed for medical procedures, often used for holding surgical instruments, medications, or other items.

05

Deep Tray

The Deep Tray provides extra depth for storing larger medical instruments or multiple items securely, offering durability and easy access.

06

Baby Tray Without Cover

The Baby Tray Without Cover is designed specifically for holding small medical instruments and accessories for infants, without a lid for quick access.

07

Mayo Table Tray

The Mayo Table Tray is designed for use with Mayo tables in operating rooms, offering a convenient space for storing surgical instruments during procedures.

HOSPITAL HOLLOWARES

01

Gallipo

The Gallipot is a small, open-topped container used for holding medications or surgical supplies in hospitals and clinics.

02

Basin

The Basin is a versatile medical container, often used for holding fluids or other medical items during procedures or treatments.

03

Bowl

The Bowl is a standard medical container used for holding fluids, surgical instruments, or other medical supplies.

04

Irrigator (Douche Cane)

The Irrigator (Douche Cane) is used for irrigating or washing wounds, surgical sites, or body cavities during medical procedures.

05

Measuring Jar

The Measuring Jar is used for measuring liquids or medications accurately, with clear markings for precise measurements.

06

Feeding Cup

The Feeding Cup is designed for administering liquids to patients, with an ergonomic design for comfort and ease of use.

HOSPITAL HOLLOWARES

07

Dressing Jar

The Dressing Jar is designed to store and organize medical dressings, keeping them safe, sterile, and easily accessible.

FORCEP JAR

01

Forcep Jar

The Forcep Jar is designed to securely store surgical forceps and instruments in a safe and hygienic manner.

CIDEX TRAY PLASTIC

01

Cidex Tray Plastic

The Cidex Tray Plastic is a lightweight, durable tray designed for safely storing and sterilizing medical instruments.

CIDEX TRAY S.S

01

Cidex Tray S.S

The Cidex Tray S.S is a high-grade stainless steel tray used for sterilizing and storing medical instruments, providing long-lasting durability and easy maintenance.

O.T. & EXAMINATION LIGHTS

O.T. LIGHTS

01

LED 20

The LED 20 is a compact and efficient operating theater light featuring 20 LEDs for surgical applications.

EXAMINATION LIGHTS

01

SSP LED 7M LED Examination Light

The SSP LED 7M LED Examination Light is a portable and efficient lighting solution designed for precise medical examinations and minor procedures.

02

7 LED EXAMINATION LIGHT

The 7 LED Examination Light is a compact and energy-efficient lighting solution designed for precision and clarity during medical examinations and minor procedures.

03

12 LED EXAMINATION LIGHT

The 12 LED Examination Light is a high-performance lighting solution crafted for precision and comfort during medical examinations and minor procedures.

EXAMINATION LIGHTS

04

Halogen Examination Light

The Halogen Examination Light is a dependable and cost-effective solution for medical and clinical lighting needs.

05

Angle Poise Lamp

The Angle Poise Lamp is a classic, highly adjustable lighting solution designed for precision and versatility.

06

Single Examination Lights

The 7 LED Examination Light is a compact and energy-efficient lighting solution designed for precision and clarity during medical examinations and minor procedures.

07

6 LED Examination Lights

6 LED Examination Lights, engineered for precision and efficiency. These lights feature advanced LED technology, delivering bright, shadow-free illumination for accurate medical examinations.

08

7 LED Examination Lights

7 LED Examination Lights, designed to deliver bright, shadow-free illumination for accurate diagnostics and examinations.

09

9 LED Examination Lights

The 12 LED Examination Light is a high-performance lighting solution crafted for precision and comfort during medical examinations and minor procedures.

EXAMINATION LIGHTS

10

12 LED Examination Lights

12 LED Examination Lights, perfect for medical diagnostics and procedures.

11

9 LED Deluxe Examination Lights

9 LED Deluxe Examination Lights, crafted for superior illumination and ergonomic functionality.

12

Hanging LED Examination Lights

Hanging LED Examination Lights, designed for precise and shadow-free illumination during medical procedures and examinations

13

VSLED 7W Examination Lights

VSLED 7W Examination Lights, designed to provide bright, shadow-free illumination for accurate diagnostics and procedures.

14

VSLED 4W Examination Lights

VSLED 4W Examination Lights, designed for precise and energy-efficient lighting.

03

OPERATION THEATER
EQUIPMENT

OPERATION THEATER EQUIPMENT

01

12 x 12 Economy

The 12 x 12 Economy Autoclave is designed for small-scale sterilization tasks, featuring an aluminum body and efficient performance.

02

12 x 12 Deluxe

9 LED Deluxe Examination Lights, crafted for superior illumination and ergonomic functionality.

03

14 x 15 Deluxe

The 14 x 15 Deluxe Autoclave offers a larger sterilization capacity with advanced technology, perfect for busy healthcare settings.

04

12 X 12 Deluxe

The 12 x 12 Deluxe Autoclave (Stainless Steel) offers reliable sterilization with a durable stainless steel body, ideal for demanding medical environments.

05

12 X 15 Deluxe (Digital)

The 12 x 15 Deluxe Autoclave (Digital) combines advanced digital controls with the reliability of stainless steel, providing efficient sterilization for medical instruments.

06

12 X 22 Economy

The 12 x 22 Economy Autoclave (Stainless Steel) is an affordable option with a larger capacity, suitable for healthcare facilities with moderate sterilization needs.

OPERATION THEATER EQUIPMENT

07

Vertical Autoclave Wing Nut Stainless Steel Double Wall

The Vertical Autoclave Wing Nut Stainless Steel Double Wall provides efficient sterilization with enhanced durability, designed for high-demand medical environments.

08

Vertical High Pressure Autoclave

The Vertical High Pressure Autoclave is designed for efficient sterilization of medical instruments under high pressure, ensuring thorough sterilization.

09

Vertical Autoclave Radial Locking Double Wall

The Vertical Autoclave Radial Locking Double Wall provides secure, efficient sterilization with double wall construction for better insulation.

10

Vertical Autoclave Radial

The Vertical Autoclave Radial Locking Triple Wall offers triple-wall construction for maximum insulation and secure sterilization of instruments.

11

Vertical Autoclave Radial Locking Triple Wall with Steam Storage and Vacuum Drying

The Vertical Autoclave Radial Locking Triple Wall with Steam Storage and Vacuum Drying offers advanced sterilization with integrated steam storage and vacuum drying for optimal results.

12

Horizontal Autoclave

The Horizontal Autoclave is designed for efficient sterilization with horizontal chamber loading, ideal for larger volumes of instruments.

OPERATION THEATER EQUIPMENT

13

Autoclave Cooker Type Aluminium

The Autoclave Cooker Type Aluminium is a lightweight, aluminum autoclave designed for efficient sterilization in smaller settings.

14

Autoclave Cooker Type Stainless Steel

The Autoclave Cooker Type Stainless Steel provides durable, high-performance sterilization, using stainless steel for increased reliability and lifespan.

15

Autoclave Cooker Type Aluminium

The Autoclave Cooker Type Stainless Steel provides durable, high-performance sterilization, using stainless steel for increased reliability and lifespan.

LABORATORY

PRODUCT

LABORATORY PRODUCT

01

Incubator

The Incubator is a precision-controlled device used for maintaining optimal environmental conditions for the growth of microorganisms or cells in laboratories.

02

Hot Air Oven

The Hot Air Oven is designed for sterilizing and drying laboratory materials by circulating hot air.

03

Microscope

The Microscope is an essential tool in laboratories for magnifying and examining small objects and specimens.

04

Haemometer

The Haemometer is used for measuring the hemoglobin concentration in blood, essential for diagnosing various medical conditions.

05

Blood Cell Counter

The Blood Cell Counter is a laboratory device used to count the number of cells in a blood sample, including red blood cells, white blood cells, and platelets.

06

Water Bath

The Water Bath is used in laboratories for precise temperature control when heating samples in a water-filled container.

LABORATORY PRODUCT

07

Centrifuge

The Centrifuge is used for separating components of a sample based on density, such as isolating plasma from blood.

ANAESTHESIA PRODUCTS

01

Resuscitator Bag (Adult)

The Resuscitator Bag (Adult) is designed for manual ventilation, ensuring oxygenation of adult patients in emergencies.

02

Resuscitator Bag (Child)

The Resuscitator Bag (Child) is designed for resuscitating children during medical emergencies, offering a secure, controlled way to provide ventilation.

03

Resuscitator Bag (Infant)

The Resuscitator Bag (Infant) is specifically designed for infant resuscitation, ensuring effective ventilation in emergency situations.

RADIANT WARMER

01

Infant Radiant Warmer (Model: SSP IRW 101)

The Infant Radiant Warmer (Model: SSP IRW 101) is designed to provide warmth to newborns in medical settings, preventing heat loss during medical procedures.

02

Infant Radiant Warmer (Model: SSP IRW 201)

The SSP IRW 201 is a state-of-the-art Infant Radiant Warmer designed to provide a stable and safe thermal environment for newborns.

03

Infant Radiant Warmer (Model: SSP IRW 202)

The SSP IRW 202 is a high-performance Infant Radiant Warmer designed to streamline neonatal care with advanced features and one-touch operation.

04

Infant Radiant Warmer (Model: SSP IRW 102)

05

Infant Radiant Warmer (Model: SSP IRW 103

The SSP IRW 103 is an advanced, microprocessor-based Infant Radiant Warmer that combines precise temperature control with intuitive functionality.

SYRINGE NEEDLE DESTROYER ELECTRIC

01

VSSNEE 102

The Syringe Needle Destroyer is an electronically operated device designed to safely dispose of used needles and syringes, preventing the risk of infection from reuse. With a simple push-to-open receptacle, it offers single-step operation. The heavy-duty transformer instantly incinerates the needle upon insertion, while the syringe nozzle is cut off manually using the built-in blade handle. A reliable and essential tool for maintaining hygiene and safety in clinical environments.

Goonj V-58

High-precision digital scale crafted for infant care features a contoured weighing tray, intuitive controls, and an easy-to-read LCD display. Ideal for monitoring newborn growth in home or clinical settings.

15

Kitchen Scale

Compact and accurate digital scale ideal for precise ingredient measurement—features a sleek design, easy-to-clean surface, and clear LCD display.

16

Chinese Baby Scale

Compact and precise digital scale designed for infant care—features a comfortable tray, high-accuracy sensors, and a clear, easy-to-read display for tracking baby growth at home or in clinics.

17

ABS

Durable digital scale made with high-quality ABS plastic—offers accurate readings, a sleek design, and resistance to wear, making it ideal for medical, personal, or commercial use.

18

Table Top Scale

Sturdy and compact digital scale ideal for medical or lab use—offers precise readings, user-friendly controls, and a flat, easy-to-clean surface.

WEIGHING SCALES

19

Chicken Scale 400*400

Durable weighing scale with a 400×400 mm platform, designed for poultry use—provides accurate weight readings with a stable surface and easy digital display.

20

Chicken Scale 300*300

Compact poultry weighing scale with a 300×300 mm platform—ensures accurate measurements, stable performance, and easy operation veterinary use.

21

Chicken Scale 350*350

Mid-size poultry weighing scale with a 350×350 mm platform—offers reliable accuracy, sturdy build, and simple digital readout for efficient clinic use.

22

Chicken Scale 500*500

Large-platform poultry scale (500×500 mm) built for accurate and stable weight measurement—ideal for veterinary settings, with a clear digital display and durable construction.

23

Micro Mini

Ultra-compact digital scale for precise small-weight measurements—ideal for medical, lab, or portable use with high accuracy and a clear LCD display.

24

SF 400

Versatile digital scale with up to 10kg capacity—features precise sensors, easy-to-use controls, and a clear LCD display for kitchen or general-purpose use.

WEIGHING SCALES

25

SF 400 C

Enhanced digital scale with high-precision sensors and improved durability—ideal for kitchen or medical use, featuring a large LCD display and user-friendly operation.

26

SF 400 A

Reliable and accurate digital scale with a sleek design, high-precision sensors, and easy-to-read display—perfect for everyday kitchen or medical weighing needs.

27

SF 400 D

Dual-display digital scale with high-precision sensors—features front and back screens for easy viewing, ideal for medical, kitchen, or retail use.

28

TS 200

Compact and accurate digital scale designed for clinical and general use—features a sturdy build, precise measurement, and a clear LCD display.

29

TS 500

High-capacity digital scale with precise sensors and a robust platform—ideal for medical or industrial use, offering reliable performance and a clear digital display.

30

BMI

Advanced medical scale that measures both weight and Body Mass Index (BMI)—ideal for clinics and health centers, featuring a digital interface and accurate health tracking.

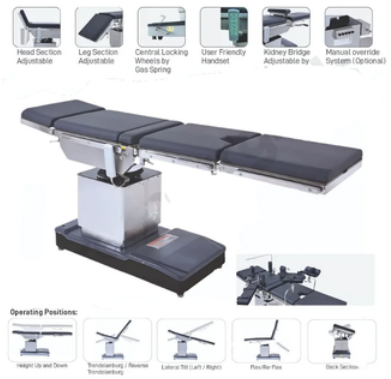
O.T TABLES

OPERATING TABLES



01

Operating Tables (SSP 2005 MAX)

The Operating Table SSP 2005 MAX is designed for high-performance surgery with adjustable height and position, ensuring comfort and precision for the patient and surgical team.

02

Operating Tables (SSP 2005 PLUS MAX)

The Operating Tables (SSP 2005 PLUS MAX) provide advanced features for complex surgeries with maximum flexibility and stability.

03

Operating Tables (SSP 2009 MAX)

The Operating Tables (SSP 2009 MAX) offer advanced surgical positioning with a reliable design, built for modern operating rooms.

04

OPERATING TABLES (SSP 2001)

Manually operated function (Height, Trend / Rev. Trend, Lateral Tilt & Back Section) Single Leg and head Section detachable and interchangeable.

05

OPERATING TABLES (SSP 2003)

Manually operated function (Height, Trend / Rev. Trend, Lateral Tilt & Back Section) Single Leg and head Section detachable and interchangeable.

HOME CARE

www.goonjcom.in

HOME CARE

01

Digital thermometer

Quick and accurate temperature readings with a clear digital display—ideal for medical use at home or in clinics, with easy operation and fast results.

02

Mercury thermometer

Classic and reliable temperature measuring tool—offers accurate readings using mercury-filled glass, ideal for traditional clinical use.

03

Digital BP Machine

Accurate and easy-to-use device for monitoring blood pressure at home or in clinics with a digital display and automatic inflation.

04

Mercury BP Machine

Traditional blood pressure monitor with a mercury column—trusted for precise readings in clinical settings.

05

Dial BP Apparatus

Manual blood pressure monitor with a dial gauge and stethoscope—ideal for healthcare professionals and students.

06

Infrared Thermometer

Contactless thermometer for quick and hygienic temperature measurement—perfect for clinics, homes, and workplaces.

HOME CARE

07

Nebulizer

Efficient respiratory device that converts medication into mist for easy inhalation—suitable for asthma and other conditions.

08

Vaporiser

Simple and effective steam vaporiser for nasal relief, facial steaming, and respiratory comfort.

09

Gel Ball

Therapeutic gel ball used for hand exercise, stress relief, and strengthening grip in rehabilitation.

10

Measuring Tape

Flexible and durable tape for accurate body measurements—essential for health, fitness, and tailoring use.

11

Yoga Mat

Comfortable and non-slip mat for yoga, physiotherapy, or exercise routines—provides support and stability.

12

Ice Bag

Reusable bag for cold therapy—helps reduce swelling, inflammation, and pain from injuries or strains.

HOME CARE

13

Hot Water Bag

Classic pain relief solution—provides warmth and comfort for cramps, aches, or cold weather

14

Pill Cutter

Compact tool to split tablets accurately and safely —ideal for dose management and convenience.

15

Pill Organiser Box

Handy compartmentalized box for organizing daily or weekly medications—ensures timely and accurate dosage.

16

Breast Pump Manual

Portable manual pump for breastfeeding mothers —easy to use, quiet, and ideal for occasional use.

17

Breast Pump Electric

Automatic electric breast pump for efficient and comfortable milk expression—ideal for regular use at home or on the go.

18

Stopwatch

Precise and easy-to-use stopwatch for tracking time—great for fitness, therapy, or clinical applications.

HOME CARE

19

Finger Exerciser

Hand therapy tool for strengthening fingers and improving flexibility—useful in rehab and sports training.

20

Hand Exerciser

Compact device to enhance hand strength, coordination, and grip—ideal for recovery or daily exercise.
